DR. GLADYS / NURSES,

*Kindly inform school heads
to attend*

RANDOLPH B. TORTOLA
Schools Division Superintendent
DepEd- El Salvador City Division
Zone 3 Poblacion, El Salvador City

Dear Sir Tortola,

Greetings!

The School-based immunization (SBI) program, implemented by the Department of Health (DOH) in collaboration with the Department of Education (DepEd), aims to protect school-aged children against vaccine-preventable diseases (VPDs) such as measles, rubella, tetanus, diphtheria, and human papilloma (HPV).

Since 2013, the SBI has been conducted annually every August in public schools nationwide, until it was suspended due to the COVID-19 pandemic. In 2024, the program was resumed as part of broader initiatives to improve student health. With the full resumption of face-to-face classes, learners are at increased risk of contracting VPDs.

Therefore, sustaining the delivery of immunization services, including school-based vaccination is critical to preventing potential public health crises and outbreaks.

In this connection, the City Health Office will be conducting a consultative meeting for School Based Immunization 2025 on September 2, 2025 at Conference Room of Executive building, hence, we would like to invite all the school heads of elementary and high school level, school physician and school nurses.

Let us unite our efforts to enhance immunization coverage in our city and ensure the well-being of our children.

Very truly yours,

f. tangcalagan
